12. **ENTRIES LIMITED:** We can host a maximum of 376 competitors. If entries exceed this number, the Match Executive Officer (XO) reserves the right to reschedule the firing program or limit the number of entries. Match #8 is limited to 300 competitors.

13. **RULES:** Except as indicated otherwise, CMP High Power Rifle and Pistol Competition Rules, 23rd Edition (2019) will govern.

14. **CLASSIFICATION:** All competitors will compete in the open classification.

15. **SQUADDING TICKETS:** The statistics office will randomly squad the warm-up match. Staff personnel will re-squad championship match competitors based on the order in which they place in the warm-up match. Once squadded for record firing, target and relay assignments will remain the same throughout the conduct of individual matches. Competitors will be squadded for the warm-up match on the firing line immediately following the opening shot ceremony. We will squad competitors that do not fire or fail to turn in a scorecard for the warm-up match after those firing the warm-up match. We will distribute team match squadding at the center of the firing line after the pits are sealed.

16. **TIME OF FIRING:** All firing will commence at 0700 daily for the first relay. All relays are required to be on the appropriate yard line or in the pits 20 minutes prior to the commencement of firing. Starting times for Matches #7 and #10 are 1 hour after completion of Matches #5 and #8 respectively. At end of each day, Team Captain meetings will discuss the next day's timelines and showtimes at the Down-Range Club, Bldg # 27241.

17. RIFLES AND SIGHTS:

a. The "Service Rifle" must meet the criteria established in the most current edition of the CMP High Power Rifle and Pistol Competition Rules (2019) and NRA High Power Rifle Rules (2016) with 2017 changes. Personally owned AR-15's (in either pre or post ban configuration) will be allowed for those competitors not having access to service provided M16's. All individuals competing under this provision will do so in the open category and will not be eligible for sub-category awards (post and station category). Since Empty Chamber Indicators (ECI) are required at the 2019 National Matches, competitors must use ECIs for the Interservice Matches.

b. Team captains are responsible for providing the Match XO with results of a Pre-Fire Inspection (PFI) before firing commences. Results will consist of a roster of competitors, weapons type, serial number, and remarks certifying a PFI was conducted and signed by the team captain. For those team/individuals that do not possess the

capability to perform a PFI, armorers will be made available to perform this service.

c. Team captains are responsible for ensuring that all rifle trigger weights are in accordance with the current year CMP and NRA Rulebook. Triggers will be spot checked by match officials during the competition. In the event a new Inter-Service record is established, that individual's trigger will be weighed.

18. TARGETS: Competitors will fire at rifle, competition, short range, short range 3, and mid-range 1 targets in all 200, 300, & 600 yard events. Competitors will use NRA long range targets in the 1000-yard events.

19. TARGET OPERATION: Competitors are responsible for pulling their assigned targets or recording scores of electronic target systems.

20. SIGHTING SHOTS: Sighting shots are not authorized except for designated matches and/or due to armorer repairs in accordance with NRA Rules 9.2-9.6.

21. AWARDS: Individual awards will be issued on the basis of three places for each individual match. First place will be awarded in team matches only.

22. SPECIAL AWARDS

a. Individual

(1) The high National Guard or Reserve competitor in Match #6.

(2) The high post or station competitor in Match #6 (paragraph 23c).

(3) The high service academy or ROTC competitor in Match #6.

(4) The high service woman competitor in Match #6 (Annie Oakley Award) if there are at least five women competitors entered in the match.

(5) The high competitor in Match #13 (LtCol Reynolds Trophy).

(6) The high Marine competitor amongst designated courses of fire (The Kevin R. "Gus" Kistler Memorial Trophy).

(7) The high Navy competitor in Match #6 (The Don McCoy Memorial Trophy).

b. Team

(1) The highest scoring National Guard team, Reserve team, NROTC, or service academy team for each team match (#12 and #14) will receive a special award. There must be at least two eligible teams in this category for the awards to be presented.

(2) The highest scoring post or station teams in Matches #10, #12, and #13, provided two or more teams from separate commands compete in the matches, will receive a special award.

c. Post or Station: The post or station category is defined as individuals or teams representing each base, post, camp, or station of each of the services, and from each Army or Marine Division/Group/Wing, or Navy or Coast Guard ship. Only Hawaii and Okinawa Marines are authorized to compete as an aggregate team due to their component unit size. While individual service members may participate in the Interservice Matches, only individuals on official orders are eligible for the high post or station special award in Match #6.

23. FIRING PROCEDURE: Firing will proceed in relays. NRA High Power Rifle Rules will govern firing line and pit operations. It is the competitor's responsibility to appear at the assigned firing point, prepared to fire, when the relay is called. Competitors are allowed three minutes to assume positions on the firing line once called. If all competitors on a relay complete firing prior to the allotted time, the next relay will be called to the line.

24. CONTINUE TO FIRE: Competitors who fire a perfect score (All X's) in Matches 1, 4, 5, 7, or 8 will be permitted to continue firing without a break. At the completion of the time limit authorized that particular relay, competitors from the next relay can move into position on the ready line. The succeeding relay will not take position on the firing line until the perfect score has been lost.

25. OPTICAL EQUIPMENT: During individual matches, the use of spotting scopes forward of the line of benches is restricted to competitors and scorers on the firing line. Place spotting scopes on the ready line so that the optical axis is parallel to the firing line. Attempted coaching from this position is cause for disqualification of that stage's score for the competitors involved. Scorekeepers may not coach while scoring, and their scopes will be turned parallel to the firing line during rapid fire.

26. VISIBLE MISSES: Spot all hits on target outside the scoring rings.

27. RIFLE RESTRICTIONS: No more than two competitors may use the same rifle in Matches #7 and #8. To be eligible for an award in Match #6, a competitor must fire the same rifle in Matches #1 through #5. To be eligible for an award in Match #9, a competitor must fire the same rifle in Matches #7 and #8.

28. BULLETINS

a. Preliminary: Stats Officer will post match results on the official bulletin board as soon as possible following each match. The bulletin board will be located at the USMC Shooting Team office Downrange Club (up range of Range #3/Bldg. 27241).

29. AMMUNITION ALLOWED: Any ammunition authorized by the NRA/CMP Rules is allowed in all matches. Competitors will furnish their own ammunition per their service regulations. (USMC post and station competitors may request ammunition through the Match Director or Match XO).

30. CHALLENGE TIME: Challenge time will close two (2) hours after the match staff post the preliminary bulletin on the official bulletin board, except for matches where bulletins are posted after 1530, in which case challenging time will close at 0700 the following day.

31. UNBREAKABLE TIES: NRA rules will be the determining factor for breaking ties. In the event of an unbreakable tie for first place, shooters will continue to fire until the tie is broken and a winner is declared. The Match Executive Officer will have final authority to determine unbreakable ties in all other cases.

32. PRACTICE FIRING: The Match XO will control practice firing times, ranges, and target availability. A preliminary practice schedule is listed in this program. Team captains must furnish all operating personnel. Normally, practices will begin within 30 minutes after completion of competition cease-fire.

33. THE INTERSERVICE EXCELLENCE-IN-COMPETITION (EIC) RIFLE MATCH: (Match #11) A Memorandum of Understanding (MOU), dated 28 May 1962, and signed by the service chiefs, standardized the "Distinguished" designation requirements. Only non-"Distinguished" registered competitors may shoot in Match #11. Competitors will earn points towards the "Distinguished" designation by placing in the top ten percent.

34. PRESHIPMENT OF EQUIPMENT: WTBN will not accept shipments of equipment or ammunition.

Those teams or individuals requesting storage at WTBN must provide the following information to match personnel prior to 10 June 2019: dates of storage, weapon type, and weapon serial numbers, including the name, rank, and SSN of the individual the weapons are to be issued to. As per USMC orders, all weapons remaining overnight at WTBN must be stored in the battalion armory. A custodian will be appointed for any team whose weapons are stored there. The custodian is required to be on-hand during the issue and recovery of weapons from their respective teams.
